Personal Projects

react-svg-path 🌐
Low level svg path generation for React.

React Loop 🌐
Primary organizer of React Loop conference

egghead.io 🌐
Teaching the latest in web technologies

I lead teams, mentor developers, close tickets, resolve problems, and invent solutions where others give up.

Experience

Mezmo   **August 2020 to August 2025**
Senior Software Engineer IV
🔗 https://mezmo.com

Developed complex data visualizations for log analysis and telemetry pipelines. Developed UI component library from scratch. Redis, Mongo, ElasticSearch, Vue 2 → Vue 3, Vuex → Pinia

Datacoral (acquired by Cloudera)   **June 2019 to August 2020**
Senior Staff Software Engineer   Remote
🔗 https://cloudera.com/

Worked closely with core platform team to develop self-serve data orchestration. Developed various UI solutions for pipeline management, data visualization, and data exploration. React, Redux, D3, CI/CD, AWS (DynamoDB, Kinesis, CloudWatch, etc.), Jenkins

Cloudbees   **June 2017 to June 2019**
Senior Software Engineer   Remote
🔗 http://cloudbees.com

Led a team of Senior UI developers. Implemented architecture, features, best practices, and testing. ES2018, React, Mobx, Jest/Enzyme/react-testing-library, Cypress, Puppeteer, Docker, Jenkins.

Genos Research (acquired by Nantomics)   **December 2015 to June 2017**
Lead Frontend Developer   Remote
🔗 https://nantomics.com/

Implementing architecture, features, best practices, and testing. Heavily involved in engineering decisions, sprint planning, task assignment, and feature prioritization. ES6/7, D3, Babel, Node, Grunt, Nightmare, ITCSS

Universal Mind   **March 2014 to December 2015**
Technical Architect Consultant   Remote
🔗 https://universalmind.com/

Led multiple teams of senior developers on several projects. Responsible for demonstrating progress to executive teams. AngularJS, Backbone, D3, Less, Sass

Insert Title Web Services   **January 2000 to January 2015**
Owner   Chicago

Managed all aspects of my own consultancy. Primarily a .NET / Angular shop.

Large projects with years of support were common and dozens of shorter term projects. ASP, VB.NET, C#, SQL, VBA, EDI x12, HIPPA, VBA, VB6 Desktop
